Transport poverty as a limitation to accessibility

- Affordability
- Security
- Planning for different activities including “mobility of care”
- Inclusive design / gender lens
- Promoting equal employment opportunities from projects

More material on www.eib.org under e.g.:
- Environmental and Social Standards
- Gender equality
EIB TA and advisory support on accessibility

• Technical assistance (TA) / advisory is part of EIB’s offering, as per its statute.

• EIB advisory support is provided through own staff, TA through third parties.

• EIB-led TA and advisory support to develop sound connectivity projects.

• Key areas of advice:
  o Integrated planning (e.g. SUMPS, functional regions concepts),
  o definition of options, for which benefits to society outweigh costs, and
  o compliance with environmental and social standards.
Discussion points

“Given the imperative to decarbonise transport, **what transport investments are needed to contribute to more equal access to mobility taking into consideration, for example, people’s location, socioeconomic status, and gender?**

“What in your view are the key measures the EIB should support to alleviate transport poverty for disadvantaged groups?

“What in your view are the key measures to reduce gender inequalities and gender-based harassment and violence in the use of transport services? How can we improve equal access to transport-related employment opportunities?

“Given the imperative to decarbonise transport, **what transport investments should the EIB support that can contribute to the balanced development of different regions and Member States of the EU and beyond?**
How to participate in the discussions – raise hands

• **Indicate that you wish** to speak

• **Wait for the cue** from the moderator, who will call out your name

• Remember to **lower your hand** if you no longer wish to speak
